

### **Internet Permission Letter to Parents**

Your child has access to the Internet. The vast domain of information contained online can provide unlimited opportunities to students and is required in some cases to access online resources as part of the curriculum and district, state, and national assessments.

Students will be able to access the Internet. Individual student accounts and email addresses will be issued to students; however, the district may limit use for particular grade levels or groups of students. These accounts are property of the school district and may be monitored regardless of the ownership of device they are used on and should not be used for personal use. Technology for educational use will be provided to students. Personal devices must follow school handbook regulations and should not be used in lieu of the school issued device.

The use of the network may be restricted as a consequence for violation of board policy or regulations. As a user of the Internet, students may be allowed access to other networks. Each network may have its own set of policies and procedures. Students will abide by the policies and procedures of these other networks.

I understand that the access to technology is essential and is designed for educational purposes. Oskaloosa Community School District has taken precautions to limit access to inappropriate online material; however I also recognize it is impossible for the district to restrict access to all inappropriate online materials and I will not hold the district responsible for materials accessed on the network.

In addition, this form when completed and on file with the district, will constitute consent for our schools to provide personal identifying information for your child consisting of first name, last name, school email address, and username (for educational use only) to the following web operators: Google Apps for Education, online curriculum resources, district, state, and national assessments and similar educational programs including the operators of any additional web-based educational programs and services which our schools may add during the upcoming academic year.

\_\_\_ I give permission for my child to use a school account for access to technology and the Internet.

\_\_\_ I do not give permission for my child to use a school account for access to technology and the Internet. I understand that the school district may not be able to provide some curriculum resources and assessments without access to a device and the Internet.
